

MAKE a

Smugglers Lantern

You will need- A sheet of A4 paper, scissors, glue, tape or stapler

1. On a piece of A4 paper draw lines as shown. Solid lines are cutting lines and dotted lines are for folding.

2. Cut off end of the paper for the handle. Decorate with felt pens or paint.

3. Fold paper in half, lengthways, along the dotted line

4. (carefully cut along the solid lines (making sure not to cut to the ends of the paper))

5. Unfold the paper. Match long edges together and tape or glue together. Glue or staple handle to the top of your lantern.

James Cable's lantern

James Cable was the coxswain of the Aldeburgh Lifeboat for 30 years from 1888 until 1917. He and his lantern, which is displayed at Aldeburgh Museum, were a frequent sight on the beach in stormy weather. The family of Cables continue to crew the lifeboat to this day.

You can see this at Aldeburgh Museum

MAKE an origami boat

You will need- A4 Sheet of coloured paper,

1. Fold the paper in half

2. Fold it in half again

3. Fold the corners in (from the folded edge)

4. Fold up the edges on each side

5. Pull the sides out and flatten to form a square

6. Fold the front and back layers up.

7. Again, pull the sides and flatten to form a square.

8. Now pull the flaps outwards

9. Pull the sides up and squash the bottom to make your boat.

Toy Yacht

This toy yacht belonged to Benjamin Britten and was made in the early 20th century. There is home footage of Britten playing with this on Aldeburgh's model yacht pond in 1954, during the time he lived at nearby Crag House.

You can see this at The Red House
